

Solar Garden Light

OB-SGL-8w | 20w | 30w |

Key Features

- CERoHSPSE certifications
- High CRI
- Warm/Natural/Cool/Cold white
- No UV or IR in the beam
- Easy to install and operate
- Light is soft and uniform, safetoeyes

Product Certification

Certified under CE, RoHS and PSE regulations

Water proofing

IP65 class protection weatherproofing connectors and siliconing sealing for better outdoor protection.

All in ONE

Solar panel, LED lamp, Battery and Controller all in-one design.

Angle Adjustable

Adopt die-casting technology, UV resistant powder coat finish. The LED module can be adjustable

Technical Specifications
Backpage ▶

- IP65
- Own driver or Mean Well driver, input voltage AC85-265V
- Super Bright Taiwanese LUMILEDS 5050 SMD LED chip used, Samsung 5630 available
- CE.ROHS
- Beam angle is TYPEIII

SOLAR light

Technical Specifications

OB-SGL
18w | 20w | 30w |

OB-SGL-8W-IP65	1Pc/carton		565x350x150mm		5.3kg	0.02 9m2			
OB-SGL-20 W-IP65			730x490x165mm		9.7kg	0.05 9m2			
OB-SGL-30 W-IP65			975x490x165mm		13.5kg	0.07 9m2			

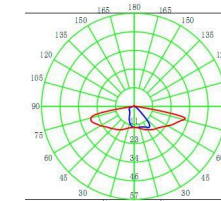

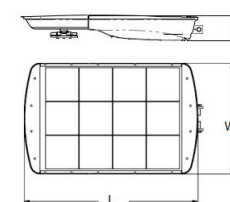

Green Features

- **Motions sensor and time control**
Motion sensor and time control intelligent mode available.
- **Automatically On and off**
Low Automatically turn on and off according to brightness, the brightness in different time schedule set by remote.
- **Environmental friendly light**
Integrated monocrystalline silicon solar panel, with more than 2000 cycles lifespan. LiFePO4 battery, High charging efficiency PWM controller.

Applications

Perfect for Strip-malls • Replacement bulb for Street light • Wall light • Post top • Solar powered street light/post • Canopy • Superstore lighting • High bay • Floodlight • Tunnel light • Warehouse • Garden • Hotel • Galleries • Stadium.
